Profile Summary

Motivated and detail-oriented Java Developer with hands-on experience in building backend-driven web applications using Java, JDBC, JSP, Servlets, Spring Boot, Hibernate, and MySQL. Strong knowledge of object-oriented programming, MVC architecture, RESTful APIs, database integration, and CRUD operations. Skilled at troubleshooting application issues, writing clean and efficient code, and collaborating effectively within development teams. Passionate about learning new technologies and committed to building scalable, high-quality software solutions while contributing to organizational success.

Technical Skills

Languages: Java, JavaScript, C, C#

Backend Technologies: JDBC, Servlets, JSP, Spring Boot, Hibernate

Frontend Technologies: HTML, CSS

Databases: MySQL

Tools & Platforms: Apache Tomcat, Netlify, Git, GitHub

Concepts: Object-Oriented Programming (OOP), MVC Architecture, CRUD Operations, REST APIs

Education

Sindh Madressatul Islam University karachi

2023-2027

Bachelor of Science in Computer Science

INTERNSHIP EXPERIENCE

1 month

- Web Development Intern Digital Empowerment Network | Virtual.
- Developed responsive web pages using HTML, CSS, and JavaScript
- Assisted in backend integration and database connectivity
- Collaborated with team members to enhance application functionality
- Improved problem-solving and teamwork skills through real-world tasks

CERTIFICATION

- Java Language-(PITP Ned Acadmey 2024)
- CIT(Certificate in InformationTechnology)-(NAVTC Viper Academy 2025)

PROJECTS

Student User management system (Java, JDBC, JSP, Servlets, MySQL)

- Developed a web-based application to manage student records efficiently
- Implemented CRUD operations (Create, Read, Update, Delete)
- Integrated MySQL database using JDBC for data handling
- Designed using MVC architecture with form validation and search functionality

Hotel room booking ( Java, JDBC, MySQL)

- Built a Java-based application to manage hotel room bookings
- Implemented features for booking creation, updates, cancellations, and viewing records
- Connected application to MySQL database using JDBC
- Ensured efficient data storage and retrieval for customer and booking details

Portfolio Website (Web Developmet)

- Designed and developed a personal portfolio website to showcase projects and skills
- Implemented responsive design for desktop and mobile devices
- Deployed the website using Netlify
